Since 2015, the Republic of Guinea did not issue any tuna fishing licenses for vessels flying a Guinean flag. Moreover, within the framework of the EU fishing agreements, there have been no cases. Thus, no tuna statistics are available between 2015 and 2016. The reasons to explain the absence of tuna fishing vessels flying Guinean flag are explained in the 2015 Annual Report of the Republic of Guinea. On the other hand, it should be noted that Guinea issued three fishing licenses to vessels flying a Senegalese flag: Granada, Western Kim, Solevant. These vessels do not land their catches in Guinea.
