The vessel had not recorded an entry for port arrival. It arrived to port at 0100 on 29/05 and had shut the logbook down on the evening of 28/05 without registering a port entry.
This is in potential non-compliance with Rec. 25-04 Para 74; Annex 2 (Minimum specification for fishing logbooks: 2) The logbook must be filled in every day (by midnight) or before port arrival and Minimum standard information for fishing logbooks: 2: Dates and ports of departure, dates and ports of arrival.

After review of the catches allocated within JFO 2026-013, the vessel did not record catches which were allocated to it by the vessel xxx following a transfer operation on 25/06.
This is in potential non-compliance with Rec. 25-04 Para 74; Annex 2 (Minimum information for fishing logbooks in case of transfer into cages 5b) which requires information on the amount of catches counted against their individual quotas to be completed in those case of catching vessels not involved in the transfer of the fish.

Opération de transfert volontaire / de contrôle comme indiqué tableau 5a.

L'observateur nous a informés qu'à la suite d'une opération de pêche réussie effectuée le 26/05, un thon mort lors de cette opération n'a pas été correctement consigné dans le journal de bord.
Il a été enregistré comme thon obèse (BET) au lieu de thon rouge (BFT), le système ne permettant pas cette dernière option. Toutes les autres informations étaient correctes.
Ceci constitue potentiellement une non-conformité à la Recommandation 25-04, paragraphe 74 et à l'Annexe 2. Information standard minimale pour les carnets de pêche : Paragraphe 5 qui exigent que l'enregistrement des captures comprenne le code FAO
et :
Recommandation 25-04, paragraphe 139 et à l'Annexe 11 : Para 3 qui exigent que les thons morts soient consignés dans le journal de bord.
Suite à ce qui suit, l'observateur signale que le navire a enregistré la présence d'un poisson mort après l'opération de pêche n° 6 effectuée le 31/06/2026, alors qu'en réalité, aucun poisson mort n'a été constaté. Ce poisson mort a été enregistré par erreur pour corriger l'enregistrement erroné d'un poisson mort suite à l'opération de pêche n° 4 du 26/05 (voir ci-dessous), conformément aux instructions des autorités françaises.

* Fishing operations as per Table 1.
Release operations as per Table 3.
Transfer operations as per Table 5.
Voluntary / control transfer operations as per Table 5a

For the transfer operation conducted on 08/06/2026 (Authorization number: MLT-2026-AUT-011), the video was not of sufficient quality to determine the amount of tuna transferred. In particular a large number of tuna passed at the same time, meaning individual tuna could not be identified.
This is in potential non-compliance with Rec. 25-04: Para 119; Annex 8 Para 1 e).
Due to bad weather, the vessel requested and was provided with ICCAT cage seals from the observer (AT07226-AT07231). The cage was sealed in accordance with Para 128 and Annex 14 of Rec. 25-04 and returned to port.
The ITD was produced and observer did not sign the ITD, inputting their name and ROP-BFT number, and the reasons for disagreement and rules / procedures not respected.
The catch was later released following a release order, on 11/06/2026.

This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded.

For the fishing operation conducted on 10/06/2026 (FOP15), bycatch of 3 albacore (ALB) and 2 skipjack (SKJ) was incorrectly recorded in the logbook (TUR-2026-06-044). Only the number was recorded, not the weight.
This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded.

Voluntary / control transfer operations as per Table 5a.

For the fishing operation conducted on 25/05/2026, bycatch of 2 skipjack (ALB) was incorrectly recorded in the logbook (TUR-2026-04-002). Only the number was recorded, not the weight, and the no FAO code was input.
This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded, as well as the FAO code.

Transfer operations as per Table 5.
Voluntary / control transfer operations as per Table 5a.

For the fishing operation conducted on 06/06/2026, bycatch of 2 albacore tuna (ALB) was incorrectly recorded in the logbook (TUR-2026-031 060). Only the number was recorded, not the weight.
This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded.

This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded, as well as the FAO code.

FOP5: For the fishing operation conducted on 03/06/2026, a discard of 1 shortfin mako (SMA) was incorrectly recorded in the logbook (18). Only the number was recorded, not the weight.
This is in potential non-compliance with Rec. 25-04: Para 74, Annex 2: Minimum standard information for fishing logbooks; Para 5c) which requires both number and weight of catch to be recorded.
