Statement

In relation to the ICCAT IR 7831 in title, performed by inspection team deployed on board of EFCA OPV Ocean Sentinel on the 21st of May, 2025, the undersigned inspectors need to add the following information:

- 1) During the inspection of the **DZA GND MOHAMED YASSER- HN118**, the Master did not show any document regarding the ICCAT authorisation. However, after checking ICCAT website, the inspection team found a possible match with a **DZA LLS MOHAMED YACER – TN118** having ICCAT number **AT000DZA00945** authorized for med SWO. According to the additional info on the website, the name of the owner of the vessel match with the owner of the inspected one, as well as the previous name and external marking. This could be considered as an additional infringement for the lack of updated marking of the vessel.
- 2) To be added to SECTION 11: suspected infringement for lack of recording of catches against ICCAT REC 03-13. No logbook onboard.
- 3) To better understand section 11, please read: DRIFTNET used to catch SWO and BFT against Rec ICCAT 03-04 para 3.
- 4) Length of the driftnet declared verbally by the master: 2400 meters.
