

## ACCESS AGREEMENT

Please complete one sheet for each access agreement before the beginning of the fishing activities.

REPORTED BY: SURINAME

YEAR: 2020

1. CPC being granted access \_\_\_\_\_ BELIZE \_\_\_\_\_

2. CPC in whose waters access has been granted \_\_\_\_\_ SURINAME \_\_\_\_\_

3. The time period or periods covered by the agreement

From: \_\_\_\_\_ 29/04/2020 \_\_\_\_\_

To: \_\_\_\_\_ 31/12/2020 \_\_\_\_\_

4. Fishing activities

Gear	No. of vessels	Species authorized	Amount authorized in tonnes	CPC to which catch is applied	Quota of CPC
Longlines	2	YFT (main catch)	not applicable	BELIZE	not applicable
Purse seine					
Baitboat					
other (specify)					

5. Please briefly describe the monitoring, control, and surveillance measures required by the flag CPC and coastal State involved

According to Suriname national legislation all foreign flagged vessels must land their fish only at the designated port which is called the port of Cevikas N.V. and is located at Paramaribo, the capital of Suriname.

All fishing vessels, authorized to fish for tuna and tuna-like species in the ICCAT Convention area are required to install satellite-based Vessel Monitoring System (VMS).

Our fishing licensing scheme also obliges fishing vessels owners/operators, in compliance with the shark conservation and management measures, to land their sharks with the fins attached to the bodies or fins should not total more than 5% of the weight of the sharks onboard.

After Suriname have received the training for our inspectors to comply with Recommendation by ICCAT for an ICCAT Scheme for Minimum Standards for Inspection in Port (12-07), Suriname will also start to inspect the foreign flagged vessels.

6. Indicate the data reporting obligations stipulated in the agreement, including those between the Parties involved, as well as those regarding information that must be provided to the Commission

Licensing scheme of Suriname also obligates the master of each vessels to submit landing declaration forms at the end of each trip to the Fisheries Department of the ministry of Agriculture, Animal Husbandry and Fisheries. These forms includes for example: quantities of landing by species, catch area, catch period, discards, etc.

The Belize flagged vessels remain under the control of Belize and the catches are being reported by Belize to the Commission as their own catch.

***7. Please attach a copy of the written agreement.***

Suriname has no written access agreement with Belize, however we allow Belize flagged vessels to fish in waters under Surinamese jurisdiction for species managed by ICCAT through our national licensing scheme. (please see copy of the licenses in the attachment)
