SUBJECT: 2021 INTERSESSIONAL MEETING OF BLUEFIN TUNA MSE TECHNICAL GROUP
(Online, 5-10 July 2021)

I would like to inform you that the *2021 Intersessional Meeting of Bluefin Tuna MSE Technical Group* will be held online on 5-10 July 2021.

Attached please find the objectives and tentative agenda of the meeting and other relevant information about the organization. I would appreciate it very much if you could distribute this announcement to scientists who may contribute by participating in the meeting. This announcement will also be published on the [current meetings page](#) of our website.

In order to organize the online meeting in advance of the session, in particular, regarding the number of participants, you are kindly requested to send to the Secretariat a list of delegates who will participate in the meeting by **25 June 2021**. Any late submission of the official delegation may cause delay in providing access to participants to the meeting and to the related documents. Participants must also register for the meeting using the online registration form available on the current meetings page of our website by **28 June 2021**.

Please receive the assurances of my highest consideration.

Executive Secretary

Camille Jean Pierre Manel

2021 INTERSESSIONAL MEETING OF BLUEFIN TUNA MSE TECHNICAL GROUP
(Online, 5-10 July 2021)

Objectives

The objectives of this meeting are to review the reconditioned operating models, review development tuning of CMPs on the reconditioned grid and to advise how best to further refine, harmonize and condense CMPs. The meeting will also give consideration to how to compile and present the results and the key messages for meetings with the Bluefin Tuna Species Group, the SCRS and the Commission, and other stakeholders.

Tentative Agenda

1. Opening, adoption of agenda and meeting arrangements
2. BFT MSE Consultant's update on work since April meeting and an informal meeting in June
3. Review of the acceptability of the reconditioned Oms
 - 3.1 Review of the reconditioned OMs
 - 3.2 Review sigma and AC values for projections of abundance indices
 - 3.3 Review robustness tests
 - 3.4 Consideration of any revisions in the reference grid
 - 3.5 Proposals for finalisation of OMs for the grid and robustness for CMP testing purposes
 - 3.6 Consideration of any revisions to plausibility weighting of OMs (if related proposals are submitted)
 - 3.7 TSD
4. CMP Development
 - 4.1 Update from CMP developers
 - 4.2 Comparison of results from development tuning
 - 4.3 Discussion of advantages/disadvantages of different MPs
 - 4.4 Further refinement and harmonization of CMPs – guidance and process
 - 4.5 Process for condensing CMPs into 2-3 top performers for further consideration
5. Performance statistics for reporting to September meeting
 - 5.1 Review of existing and of any additional statistics proposed
 - 5.2 Trimming performance statistics
 - 5.3 Plotting
6. Messaging on MSE (material for the SCRS and Commission, and other stakeholder groups)

3. Language

The working language for the meeting will be English, as no simultaneous translation can be provided. Scientific documents can be written in English, Spanish or French.

4. Call for scientific papers and presentations

Participants are encouraged to submit relevant scientific papers. In order to better organize the meetings, in 2014 the SCRS established deadlines for submitting documents, which were revised in 2015. These deadlines provide the rapporteurs with valuable information to better fit the meeting timetable as well as allow the Secretariat to make the documents available to participants in advance of the meeting. In 2015 and 2019 the SCRS “proposed that a new deadline for the submission of SCRS documents and presentations should be implemented; these documents/presentations should be provided in their entirety at least one week before the meeting in which they are to be presented to facilitate their review by participating scientists prior to these meetings”. As such the full documents and presentations for this meeting should be provided to info@iccat.int or ai.kimoto@iccat.int by **28 June 2021**. Documents and presentations provided after the latter deadline will not be accepted unless previously authorized by the Chair. Authors are reminded to closely follow the *Guidelines for Authors of Scientific Documents for the ICCAT SCRS and Collective Volume Series*. Furthermore, the original documents (text, tables and figures) should be prepared in WORD or compatible software.

5. Registration

Participants are kindly requested to register for the meeting by **28 June 2021** at the latest. Early registration is essential for the Secretariat to ensure the setting up of the online platform. **Online registration** must be completed through the ICCAT [current meetings page](#) or [Registration form](#). All delegates from CPCs wishing to attend the meeting must notify in advance their Head Delegate or Head Scientist to ensure that they are included in the official list that must be sent to the Secretariat by **25 June 2021**. Any late submission of the official delegation may cause delay in providing access to participants to the meeting and to the related documents.

6. Online settings

The Secretariat is using the Zoom application for the online meetings. You can find the hardware requirements to join an online meeting at the following link: [Zoom Hardware requirements](#). We strongly suggest using headphones with a microphone to be able to hear and speak comfortably during the meeting.

A brief and clear introduction of the application can be found at: [Zoom-overview](#), if you have further questions, please contact the Secretariat for support. All participants duly registered **will receive an e-mail** through the online platform **with a link to join the meeting**.
