<b>TOTAL</b>	<b>28,000</b>	<b>32,000</b>	<b>36,000</b>

\*Notwithstanding the provision of this Part, Iceland may catch beyond the quota amount each year by 25% while its total catch for 2018, 2019, and 2020 shall not exceed 336 t (84 t + 112 t + 140 t).

In 2018 and 2019, the Commission may distribute the unallocated reserves for 2019 and 2020 in consideration of the stock status updated by SCRS and the needs of CPCs, in particular the needs of coastal developing CPCs in their artisanal fisheries.

This table shall not be interpreted to have changed the allocation keys shown in the *Recommendation by ICCAT Amending the Recommendation 13-07 by ICCAT to Establish a Multi-Annual Recovery Plan for Bluefin Tuna in the Eastern Atlantic and Mediterranean* [Rec. 14-04]. The new keys shall be established in the future consideration by the Commission.

Mauritania may catch up to 5 t for research in each year. The catch shall be deducted from the unallocated Reserve.

In addition to the above quotas, Algeria may catch up to 200 t and 240 t in 2018 and 2019 respectively.

These TACs shall be reviewed annually on the advice of the SCRS.

Depending on availability, Chinese Taipei may transfer up to 30 t, 40 t and 50 t of its quotas to Korea in 2018, 2019 and 2020 respectively.

Depending on availability, Libya may transfer up to 46 t of its quota to Algeria in 2018.
