CALCULATION OF OVERHARVEST PAYBACK FOR PANEL 1 IN ACCORDANCE WITH PARAGRAPH 2 A) OF REC. 16-01

In 2017, the Secretariat calculated the amount to be deducted from CPCs with quota assignment in accordance with para 2 of Rec. 16-01 on the basis of a total overharvest of 2,343.5 t in 2016. However, on the basis of the revised information relating to 2016 catches which were received in 2018, the total overharvest now ascends to 12,499.98 t. The pay back by those with an allocated quota may, therefore, need to be adjusted and the 2017 adjusted quotas reduced accordingly.

In addition, the overharvest for 2017 is 12614.3 t, which needs to be deducted from the 2018 adjusted quotas.

The calculations are shown below:

Total catch vs TAC		
2016	2016 revised	2017
67,343.5	77,499.98	77,614.3
65,000	65,000	65,000
2,343.5	12,499.98	12,614.3
