

DRAFT N-SWO PLAN FORM

CP41\_NSWOPlan

Deadline: 15 September

NORTH ATLANTIC SWORDFISH FISHING / MANAGEMENT / DEVELOPMENT PLAN

Name of CPC: XXX

Fishing Plan Year: 20XX

1. Introduction

Each CPC to provide a summary of its fishing plan, which includes information on their allocated quota, number of fishing vessels by gear type, and relevant national legislation.

2. Details of fishing plan

Each CPC will provide information on all fishing gear groups that catch north Atlantic Swordfish, including the total number of vessels in each group, how quotas are allocated to each gear group and, where applicable, how they are allocated to each vessel in that group. CPCs will also provide information on method(s) used to manage quotas as well as how catches are monitored and controlled to ensure vessel and gear group quotas are respected.

CPCs should also complete the following table:

	ICCAT Requirement (per 17-02)	Explanation of CPC: actions taken to implement	Relevant domestic laws or regulations (as applicable)	Note
1	Measures implemented to prohibit the taking of and landing of undersized fish (paras 9 and 10)			
2	If applicable, tolerances granted to 1 above (para 9)			
3	Transfers of quota foreseen (para 12)			
4	Maximum onboard by-catch limit if applicable (para. 14)			

N. Atl Swordfish Vessel Fleet	Current Number of Vessels	Expected Number of vessels
