

**REPORT OF THE MEETING OF THE
TECHNICAL AND LEGAL EDITING GROUP OF CONTRACTING PARTIES**
(Madrid, Spain, 28-29 January 2019)

1. Opening of the meeting

The meeting was opened by Mr. Raul Delgado, Commission Chair, who agreed to chair the Meeting of the Technical and Legal Editing Group of Contracting Parties. Mr. Bernal Chavarría (Honduras) was nominated to serve as rapporteur.

The Executive Secretary noted that participants from eighteen Contracting Parties were present, but as had been agreed, all were participating as legal or technical experts rather than representatives of their respective CPCs. For that reason, it was agreed that the floor would be given to individuals by their name rather than delegations by their flag.

Ms. Deirdre Warner-Kramer, Chair of the Working Group on Convention Amendment, participated in the meeting via Skype, together with her colleague Alexis Ortiz.

The list of participants is attached as **Appendix 1**.

2. Revision of Amended Convention Texts

As agreed at the Commission meeting, the texts would be presented as a package containing three components: 1. Proposal for Amendment of the International Convention for the Conservation of Atlantic tunas; 2. Draft Recommendation by ICCAT on fishes considered to be tuna and tuna-like species or oceanic, pelagic, and highly migratory elasmobranchs; and 3. Draft Resolution by ICCAT regarding participation by fishing entities under the amended ICCAT Convention. However, the Group focused on the first component concerning the revisions to the Convention.

It was noted that the mandate of the Group was to limit itself to the following tasks, in accordance with the instructions which had been circulated in advance by the Working Group Chair:

- a) Consistency check of use of terminology within the Convention text;
- b) Issues related to format (e.g. punctuation, spelling, format for numbering, cross references, etc.);
- c) Correct use of language; and
- d) Consistency of language among the English, French, and Spanish versions of the text.

The Technical and Legal Editing Group of Contracting Parties first examined the English text and made several minor amendments to ensure clarity and coherence. Where appropriate, these changes were incorporated into the French and Spanish versions. The agreed text included some improvements to the corresponding translations without modifying the substance of the text approved by consensus. The participants also recognized that in some cases, although the wording could possibly be improved, it was preferable to leave the current text as adopted by the Working Group on Convention Amendment due to the possibility of exceeding its mandate and reopening areas where consensus had been reached. In the spirit of self-constraint, although it was found that Article IV may also need to have been incorporated into Annex 2, paragraphs 4 and 7, due to its being of principle and obligatory for the Commission, it was decided by the Group to leave this decision of potential incorporation to the future Plenipotentiary Meeting.

Following agreement on the English text, the French and Spanish versions were reviewed for any possible additional wording changes which would be specific to those languages. The participants noted that the legal translation services of the FAO had been kind enough to review the texts and provide some input. Several of their suggestions were taken on board, especially those regarding unification of terms, but for the same reasons that changes to the English version had been kept to a minimum, not all the suggestions by the FAO translators were accepted. One of the terms accepted was to change the word “voisines” to “apparentées” in the French version, as the translation of tuna-like in the phrase “tuna and tuna-like species”. For coherence, this phrase was also changed in the “Draft Recommendation by ICCAT on fishes considered to be tuna and tuna-like species or oceanic, pelagic, and highly migratory elasmobranchs”.

The agreed text is attached to each language version of this report as **Appendix 2**.

3. Consideration of future actions

The Commission Chair reminded the Group that the next steps outlined in the Working Plan, as adopted by the Commission, will have to be carefully followed to ensure the objectives of the amendment process are reached, and CPCs have the opportunity to review the text resulting from this Working Group. Ms. Warner Kramer also reminded the participants of the procedure which had been adopted by the Commission whereby CPCs will have 45 days to review the text in the three official ICCAT languages. She emphasized that any additional suggestions which may arise be kept to the absolute minimum strictly necessary to ensure correct understanding of the texts in three languages, in order not to further delay the process.

4. Adoption of report and adjournment

The attached texts had been agreed by all participants, with only the body of the report remaining to be adopted by correspondence. The Chair of the meeting thanked all the participants for the positive spirit in which they worked and declared the meeting adjourned.
