

**Explanatory note on Draft Recommendation by ICCAT for a Joint International Inspection Scheme
in the Convention area in areas beyond national jurisdiction**
(proposed by Canada, based on PWG-419A/2021)

In November 2021, Canada submitted a proposal to the PWG at the 27th Regular Meeting of the Commission to create a Scheme of Joint Inspection that would apply to all fishing occurring in the western Atlantic portion of the ICCAT Convention area in areas beyond national jurisdiction. Canada was pleased with the high level of support that other Contracting Parties expressed for the proposal, but recognizes that not all Contracting parties were prepared to support it.

We are interested to continue to build consensus on this issue, especially in view of the current lack of a cooperative enforcement scheme in the western Atlantic, in contrast to the eastern Atlantic and Mediterranean where schemes are in place for eastern bluefin and Mediterranean swordfish. We remain concerned about illegal, unreported, and unregulated (IUU) fishing activity in the Convention area in areas beyond national jurisdiction, and its negative impacts on the sustainability of ICCAT stocks and the fishing opportunities of CPCs.

Canada recognizes that multiple Schemes of Joint Inspection in the ICCAT Convention area could lead to inconsistencies in application. In order to bring a whole-of-Convention-area approach, Canada is pleased to submit this proposal for a single Scheme of Joint Inspection for the ICCAT Convention area in areas beyond national jurisdiction based on text presented in document PWG-419A in November 2021 (the last version considered by the PWG) for CPCs' consideration. New text is shown underlined.

This Scheme of Joint Inspection would incorporate all terms and conditions of the existing inspection schemes for eastern bluefin and Mediterranean swordfish and would include all areas under the jurisdiction of ICCAT in areas beyond national jurisdiction. However, these existing inspection schemes would remain in effect until a single Scheme of Joint Inspection for ICCAT receives final approval.

Canada invites responses and comments from all CPCs on this draft Recommendation in the hopes that it can be adopted to begin implementation in 2023.

Draft Recommendation by ICCAT for a Joint International Inspection Scheme in the Convention area in areas beyond national jurisdiction

(proposed by Canada, based on PWG-419A/2021)

RECALLING Recommendation 75-02 for a Scheme of Joint International Inspection, Annex 7 of Recommendation 19-04 establishing a joint international inspection scheme for the eastern Atlantic and Mediterranean bluefin tuna fishery, and Annex 1 of Recommendation 16-05 establishing a joint international inspection scheme for the Mediterranean Swordfish fishery;

FURTHER RECALLING Recommendation 19-09 on Vessel Sightings, and Recommendation 98-11 Concerning the Ban on Landings and Transshipments of Vessels from Non-Contracting Parties Identified as Having Committed a Serious Infringement;

RECALLING ALSO the General Outline of Integrated Monitoring Measures adopted at the 13th Special Meeting of the Commission (Doc. 02-31);

INTENDING to strengthen ICCAT's monitoring, control, and surveillance regime to promote compliance with the ICCAT Convention and the Recommendations of the Commission by expanding the use of a joint international inspection regime to the entire Convention Area beyond areas of national jurisdiction;

RECOGNIZING the value of establishing a Scheme of Joint International Inspection for the Convention Area beyond areas of national jurisdiction that reflects current international standards and is available to all fisheries or areas under the jurisdiction of ICCAT.
